

CONTINUOUS IMPROVEMENT | INTEGRITY | RESPECT | CLIENT FOCUSED

Welcome to our Spring newsletter, embracing growth, success, and opportunities.

We are committed to continuous improvement, continuously working to enhance our processes and services.

At PDAC 2024 (Prospectors & Developers Association of Canada) in Toronto this year, we started by participating in the Mining 4 Beers gathering. This marks Gisborne's third year co-sponsoring the event, and we're keen to continue this partnership into the future. Being surrounded by colleagues and friends in the mining community made it feel more like a reunion than a conference. PDAC provided an invaluable opportunity to engage with industry leaders and stay abreast of the latest developments in the mining sector.

We're looking forward to the CIM event being on our home turf in Vancouver from May 12-15. If we didn't get the chance to catch up in Toronto, we're looking forward to reconnecting there, where our team will be available for this event.

Please feel free to reach out to schedule a time to discuss our capabilities by contacting;

PROJECT UPDATES

ASCOT MINE

Congratulations to our dedicated and hard-working team at the Ascot Mine Project for reaching significant milestones this year. Our team installed over 18,000 ft. of process piping plus the fire protection system.

BLACKWATER MINE

We are steadily advancing our work at the Blackwater mine site, actively engaged in the structural, mechanical, and piping scope for the project. As we work our way to a successful completion, we look forward to the spring and summer seasons..

OAKRIDGE PROJECT

Gisborne continues to provide fire protection installation services to all seven active towers for the Oakridge Project in Vancouver. At its peak, we aim to have approximately 30 workers on site. When completed, this project will create a new vibrant cultural district that incorporates retail, office, residential, cultural, and civic uses, and a new nine-acre landscaped rooftop park.

BRIDGE STUDIOS

A great aerial photo of the Bridge Studios at Lake City Studios, where Gisborne is installing fire protection systems. Lake City Studios consists of 21 purpose-built soundstages on 18.5 acres, conveniently located just 20 minutes from downtown Vancouver and 40 minutes from YVR airport. We're proud to contribute to the safety and success of this film production hub in Canada.

FIRE SYSTEM DESIGN AND CAPABILITIES

We excel in designing industrial fire protection systems, starting from the initial concept all the way to the engineering details. We ensure these systems seamlessly fit into complex industrial settings. Our expertise lies in planning, designing, and carrying out projects. Using our knowledge of specific industries, we create customized fire safety solutions that protect people assets and keep businesses running smoothly. Currently, we are successfully implementing these solutions in a hydrogen project in Ontario and key mining development projects in Saskatchewan and British Columbia, across Canada, the US, and Mexico.

OUR CONCEPT TO DETAILED DESIGN
FIRE PROTECTION WORK EXTENDS TO:

DESIGNING FIREWATER NETWORK,
HYDRANT AND PUMP SETS

IMPLEMENTING WATER-BASED SYSTEMS
SUCH AS SPRINKLERS, DELUGE, MIST

FOAM SUPPRESSION SYSTEMS

FIRE AND GAS DETECTION AND ALARMS

CLEAN AGENT

FIRE SUPPRESSION SYSTEMS

PROCUREMENT ASSISTANCE, SUPPORTING
CONSTRUCTION, COMMISSIONING, OPERATION,
AND MAINTENANCE

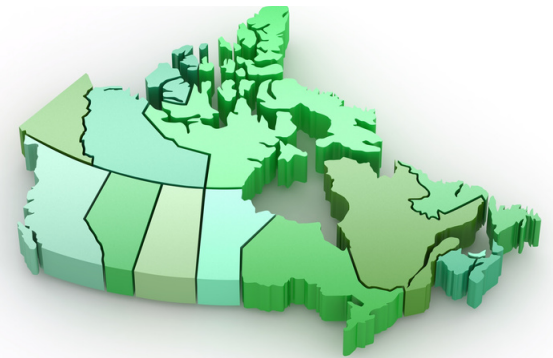

2023 ALBERTA COR AUDIT

Gisborne have been continuously working towards improved delivery of our safety culture.

We have recently passed our Alberta COR Audit and look forward to another year of improvement. Our BC COR Audit begins in May.

We are providing construction, maintenance, design, and fabrication services to ten mines throughout Canada. These mines encompass a diverse range of operations and locations, showcasing our comprehensive expertise in supporting the mining industry.

Gisborne's performance on key projects, including the Vancouver Airport Fuel Delivery (VAFD) and Rivergreen 17, has been nominated for the VRCA 2024 awards.

MAINTENANCE TEAM

A big shoutout to our dedicated Gisborne Fire Protection team for their outstanding efforts during the winter period for tackling snow and handling burst pipes like pros. Your hard work and resilience don't go unnoticed. Please remember, our maintenance team is here to support you. Don't hesitate to reach out to Maegan Teunissen Fire Protection Service Manager MTeunissen@gisborne.com if needed. Great job, team.

BC FIRE PROTECTION TRAINING SESSION

Our recent training sessions for BC Fire Protection Forepeople, Technicians, and Supervisors at our Burnaby office provided a wonderful opportunity to come together and stay informed on updates.

We had a great night at the hockey game alongside all our talented apprentices. Thank you all for your hard work and dedication.

OPPORTUNITIES

Join Gisborne: We are growing and we believe in taking care of our employees. That's why we offer a range of great benefits for our team members.

By joining our team, you will be part of a dynamic and innovative company.

Take the first step towards a brighter future with Gisborne.
